DATA SHEET

Sirman VULCANO 2 Electric Double Deck Stone Based Compact Pizza Oven

30400612

Build

- Constructed with a robust stainless steel structure for durability and corrosion resistance
- External body finished in black oven-hardened prepainted steel for a sleek look and added surface protection
- Baking decks made of refractory stone to ensure optimal heat retention and uniform baking performance
- Heating elements with shock-proof protection for enhanced safety, durability, and reliable performance under high-temperature conditions
- Glass fiber insulation throughout the unit minimizes heat loss and improves energy efficiency
- Constructed with two separate baking chambers, each fully thermally insulated to maintain stable internal temperatures and allow for independent operation
- Each chamber equipped with two thermostats for precise temperature control of the upper and lower heating zones independently

Technical specifications

External Size

External Width	780mm
External Depth	720mm
External Height	530mm

Weight

Net weight	70kg
package weight	83kg

Technical Features

Internal Dimension	500x520x115mm
Temperature	50 - 450 °C

Connection requirements electric

Electrical connected loads	6.400w
Voltage	240 1N/50Hz
Plug Supplied	No

Warranty

2 Year Warranty	2 years parts and labour

**Subject to a prevanttitive maintence plan*
