Build

- Heavy-duty robust construction built entirely from heavy gauge AISI 304 / 316 stainless steel and designed for intensive industrial use.
- Constructed with the highest quality materials and components, ensuring longevity, ease of maintenance, and adherence to the highest hygiene standards for cleaning and sanitization
- Designed and constructed with best-in-class insulation layers that minimize heat loss, optimize energy efficiency, and enhance cooking yield
- Heavy duty 110 litre Jacketed Tank constructed entirely from heavy-gauge AISI 316 / 304 stainless steel.
- Thick-Rayed AISI 316 / 304 stainless steel bottom base enhances thermal efficiency and stability, ensuring optimal heat distribution and durability during intensive use.
- Heavy-gauge AISI 304 stainless steel lid equipped with a special device for balanced weight, ensuring effortless opening.
- Electric tank tilting mechanism powered by a robust gear motor, enabling effortless emptying of the tank.
- Indirect electric heating system powered by 16.5 kW armored heating elements heats the water in the jacketed wall cavity, generating steam for even heat distribution while minimizing food sticking, ensuring perfect cooking results.
- Water jacket equipped with a safety pressure relief valve and manometer for monitoring pressure levels, with a pressure gauge set to 0.45 bar, ensuring optimal operation and safety
- Electronic thermostat control offers 7 levels of adjustable power, easily managed through the electronic control pad, ensuring precise cooking for optimal product results
- Safety thermostat ensures added protection during operation.
- Safety lamp alerts operators if any electrical phase issues occur ensuring enhanced safety.
- Durable electronic control panel with a microprocessor enables effortless temperature regulation across 7 levels and allows for easy tilting of the tank.
- Maximum and Minimum valves are fitted to regulate the level of distilled water within the water jacket. It is necessary to periodically check for the presence of distilled water for the correct functioning of the pot. An optional automatic water gap filling device is available upon request.
- Extensive range of options and accessories to meet the every possible application.
- Backed by over 50 years of industry experience, Baratta continually innovates to exceed standards for strength, functionality, and maintenance, affirming its leadership in high-quality kitchen solutions.
