ZANOLLI CITIZEN GAS PW 6+6 /MC

Gas Double Deck Pizza Oven – 6+6 Pizza Capacity

1CT6E02A-2

MAIN FEATURES

- Heavy-duty full stainless steel construction for superior durability
- Athermic full-length stainless steel handle designed for heat resistance, ensuring safe and comfortable handling
- Heavy-duty spring-mounted doors feature a large viewing window made of double fireproof ceramic glass
- Gasket-free, heavy-gauge insulated door designed to enhance heat retention within the cooking chamber
- Double-layered refractory stones at the top and bottom provide excellent insulation and heat retention, improving heat absorption for better cooking, consistent baking, and energy savings.
- Dependable electromechanical control panel, featuring a digital display and electronic pilot ignition, ensures intuitive and straightforward operation.
- Maximum temperature 370°C
- Independent lighting within the chamber
- High-performance gas burner optimized to compensate for heat loss due to door openings and high-volume usage
- Offering best-in-class gas consumption of 47MJ/hr, this oven ensures substantial savings on operating costs while maintaining even baking temperatures and enhancing overall baking performance.
- The burner power is fully adjustable with an easy-to-use selector, enabling the operator to switch between low and high flame settings as required, which further enhances energy efficiency.
- The burner, positioned at the lower part of the oven, facilitates optimal heat circulation and ensures even temperature distribution throughout the chamber.
- Best-in-class rock wool insulation delivers maximum thermal protection, ensuring an excellent balance between energy consumption and production efficiency.
- Double stacked for maximum productivity and highest capacity.
- Compact design making it ideal for space-constrained environments
- Reliable and durable, thanks to the high quality of materials and components used in its construction
- Extended range of accessories is available for the Citizen PWG 6+6 series, including stands and leavening cell provers.
- Optional inbuilt exhaust hood canopy, compliant with and certified to all Australian and NZ standards

SPECIFICATIONS

Capacity	6 + 6 x Ø34cm
Configuration	Double Deck
Power Source	Gas
Gas Consumption	47MJ/hr + 47MJ/hr
Voltage	240 Volts
Watts	100W + 100W
Plug Supplied	10A Plug x 2
Temperature	370°C
Baking Chamber 1 Baking Chamber 2	1050 W X 700 D X 160 H 1050 W X 700 D X 160 H
Dimensions	1450 W X 1180 D X 560 H
Weight	490kg | 245 kg + 245kg
Warranty	2 years parts and Labour
